# Example: Dungeons and Dragons Insults

Certainly! Here are 10 Monty Python-style insults perfect for a Dungeons & Dragons game:

1. "Your mother was a kobold and your father smelt of moldy rations!"
2. "You insignificant twerp! I've seen gelatinous cubes with more backbone than you!"
3. "You flea-bitten gnoll! I bet your breath could fell a dragon from fifty paces!"
4. "You're as useful as a troll in a china shop, and twice as ugly!"
5. "You loathsome goblin, I'd sooner share a dungeon cell with a dire rat than spend another moment with you!"
6. "Your brain is as empty as a goblin's treasure chest!"
7. "By the gods, you fight like a drunken dwarf with both arms tied behind his back!"
8. "You pitiful excuse for a wizard! My grandmother casts better spells after a flagon of dwarven ale!"
9. "I'd rather listen to a bard's endless lute solo than hear another word from your rancid mouth!"
10. "You're a disgrace to adventurers everywhere! Even a mind flayer wouldn't bother devouring your feeble intellect!"

# Principle 2: Be the Human in the Loop

# Centaur and Cyborgs

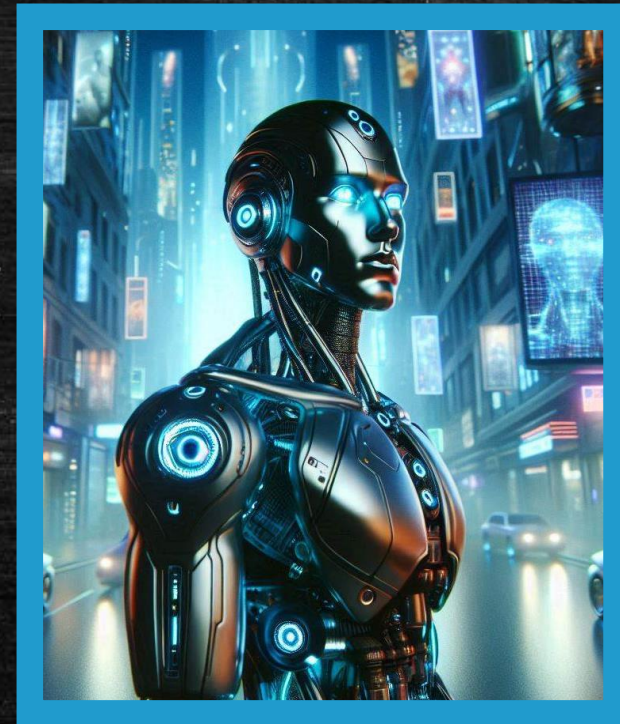

## Centaur Approach

Determine what tasks AI will do based on strengths.

## Cyborg Approach

Blend tasks between humans and the AI tool.

Principle 3: Treat AI like a person (but tell it what kind of person it is)

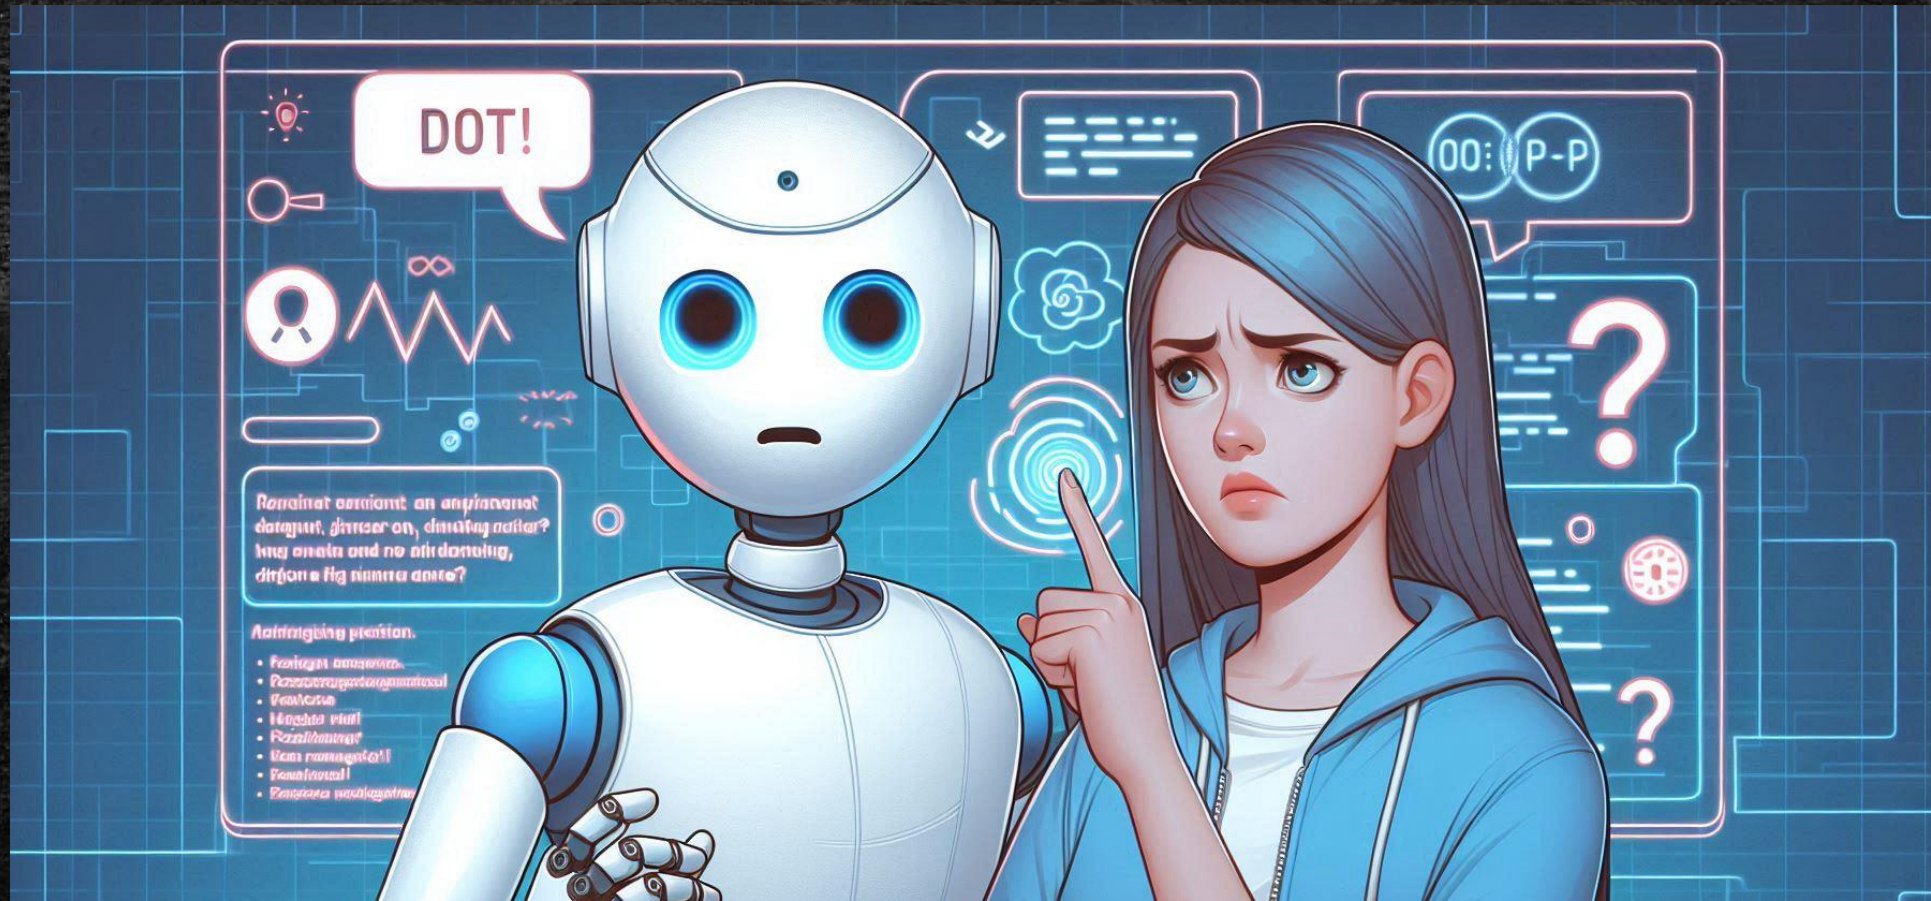

# Ways to Tell AI Who to Be

Ask AI to explain a concept to different ages or skill levels.

Ask AI to take on the perspective of a particular profession: Hiring Manager, President, Marketing Executive, etc.

Principle 4: Assume this is the worst AI you will ever use.

# The Guardian Legion

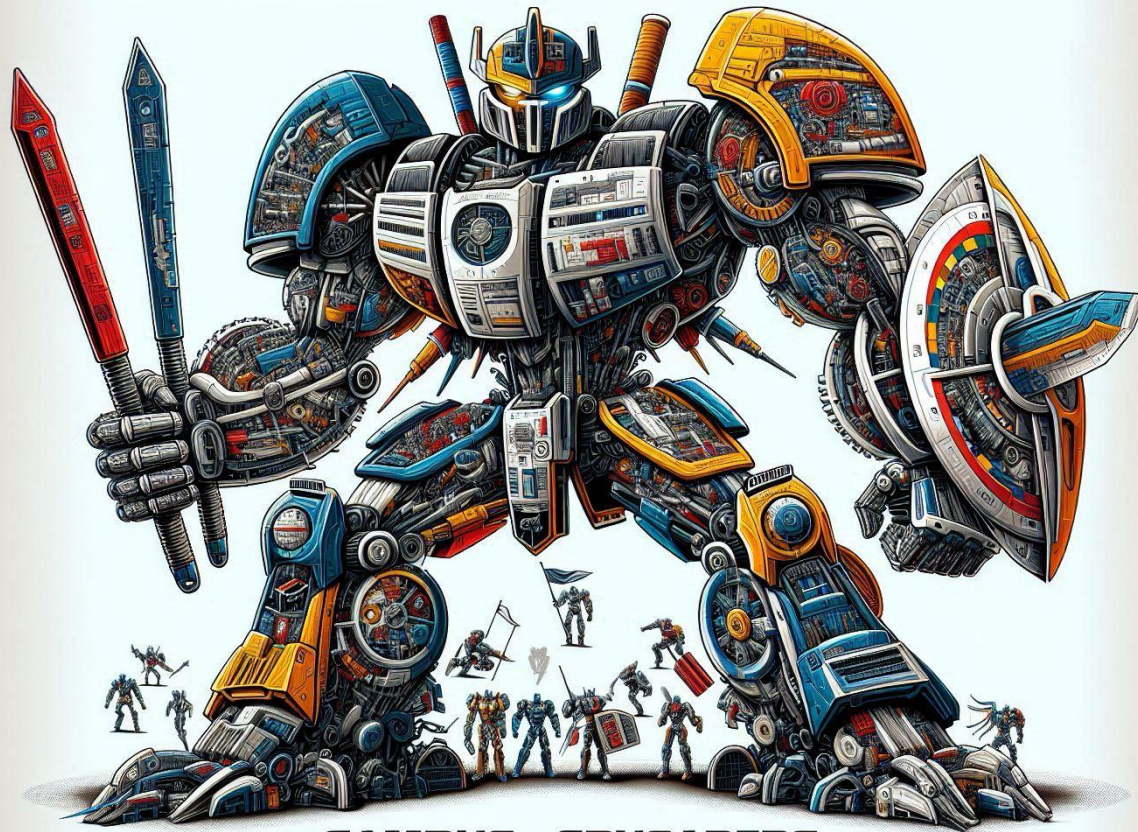

Each campus retains its individual mascot: a Spartan, a badger, and a hornet. When combined, they form "The Guardian Legion," a protector figure that embodies the strength, tenacity, and teamwork of all campuses. The Spartan's shield, the badger's claws, and the hornet's wings could be prominent features of this united mascot.

# The Elemental Champions

Each mascot could represent an elemental force: the Spartan as Earth, the badger as Fire, and the hornet as Air. When combined, they become "The Elemental Champions," a mascot that showcases how different elements can merge to create something greater than the sum of its parts, much like the institutions they represent.

# The Campus Crusaders

**CAMPUS CRUSADERS**

The individual mascots could be reimagined as robotic warriors with distinct abilities and attributes. When united, they form "The Campus Crusaders," a giant robot that stands for the collective ambition and unity of the campuses, ready to face any challenge together.
