Mark the students as Present, Tardy, Absent, or Excused

Tardy: Student showed up late. Please note that tardies do not create alerts. If you are concerned about a student being tardy, please submit a [faculty initiated alert](#).

Absent: After a student is marked absent 2x, an alert is auto created, and a message is sent to the student encouraging them to connect with the instructor.

Excused: If you mark a student as excused, it will not count towards the absences. So, if they are excused 2x, no alert will be sent.

Comments will be viewable by advisors. It can be helpful for advisors to know if the student has been in contact with you about the absence and/or reason. Ex: Student emailed me they are ill
